PRICE 5 CENTS

Indefinite Delay For Glenton Hotel

Edmonton Agent Advises Against Building at Present

The multi-million dollar, 22-storey, 550-room Glenton Hotel is not going to be built in Edmonton for some time. Percy Herring, Edmonton agent for Col. John C. Boright, who heads the Glenton Development Co. (a Canadian-U.S. Syndicate), has recommended to his superiors that the hotel not be built at the present time.

Bushland Fire Hazard Explosive

Winds and hot weather are raising northern Alberta forest fires to spread rapidly. Old fires are getting worse, chief timber inspector J. L. Janssen said today, and the situation is "serious."

He described Alberta's forest fire situation as "very, very bad."

BUSH TINDER DRY

"The bush is tinder dry, practically explosive," he said. "The least spark will set it off."

Dangerous condition exists particularly on sites of "old burns" areas once before ravaged by forest fires.

Dry grass that forms a mat over the ground, and old, dead timber are so inflammable they are referred to by forestry men as "flash fuel."

Since most of this year's fires have been on "old burns," and fire fighters have managed to restrict wind-fanned flames, very little merchantable timber has been lost this year in Alberta forests.

FIRE NEAR WHITECOURT

"Commercial timber losses have been almost negligible," said Mr. Janssen.

"But we have lost quite a bit of young growth," he added.

In the meantime, still another fire was reported in Alberta's northland.

Bringing the total to 15 fires burning, a new blaze was reported overnight from northeast of Whitecourt. Just a ground fire, there have been only five men sent out to battle the flames.

DANGEROUS IN B.C.

And in British Columbia, logging companies are taking no chances. Logging operations on Vancouver Island reached a standstill yesterday as forest conditions forced nearly all companies to cease operations.

In some places, Vancouver Island forest is described as "tinder dry."

At Campbell River, one of the largest logging areas on the island, more than 300 loggers are on enforced holiday until the fire hazard eases up.

Total of 15 spot fires broke out elsewhere in B.C. yesterday alone, and lightning storms continue to add to the list.

A seemingly shell-shocked Edmonton fell before the sartorial splendor of a Toronto invasion today. And not a shot was fired.

Hardly a cheer was cheered for that matter. But the lads and ladies from Bay Street enjoyed themselves. The good burghers of this town didn't.

And who can say whether Edmontonians enjoyed themselves or not?

Our citizens weren't talking Or yelling.

JUST CURIOUS

But several thousand assorted curious lined Jasper avenue to watch the mad-cap antics of the usually astute easterners.

"It must be the air up here" was

PROPERTY OPTION GIVEN

On May 25 city council of Edmonton announced the Glenton company had been given a six months option to purchase the block at 100 street and 42A avenue.

Purchase price was set at \$150,000. For months previous to this, Col. Boright of Montreal and American officials of his company spent weeks in the city negotiating tax agreements, details of construction and various other forms of administration, and gave out considerable publicity on the project through Mr. Herring.

On Feb. 7 Col. Boright reported the new hotel as a "sure go" proposition.

At that time he anticipated a start on the project within six weeks.

Shortly after this announcement, Mr. Boright was joined in Edmonton.

More Baking Weather Due

Prairies will continue to bake today under a hot sun, with little rain relief expected anywhere.

In the Edmonton district scattered thunderstorms are expected this afternoon and may develop again tomorrow. No change in the present weather pattern is anticipated for the next few days.

A slightly cooler weather system is moving in from the west but it is not expected to make an appreciable difference in the heat wave here.

Temperatures soared all over the prairies and the north country yesterday. Norman Wells registered 86, Fort Nelson 86, Grande Prairie 88, Edmonton 88, Kamloops in B.C. soared highest, temperatures there going to 96 above.

Calgary and Lethbridge regions stayed below 75 degrees yesterday. Variable cloudiness is expected in the Stampedo city today with possible thunderstorms this afternoon and evening.

Cross-country temperatures yesterday:

G. Prairie	71	21	Vancouver	71	21
Fairview	68	29	Vancouver	70	21
Edmonton	68	29	August	73	21
Pennock	50	45	Kamloops	78	45

OIL WELL BORN IN FLAMES

Believed best lower Cretaceous well to be discovered in Alberta yet. New Pacalta No. 1 sent towering pillar of smoke and flame skyward today as it was cleared on flare line before going on production with initial potential of more than 1,000 barrels a day. For details of new producer, see Don Flach's oil column on page 25.

\$1 Billion Alaska Rail Network Said Planned

VANCOUVER, July 14.—(CP)—Plans for a billion-dollar program to spread a network of railroad lines through northern British Columbia, Alaska and Yukon Territory, were disclosed here yesterday by an executive of the Canada-Alaska Railway Co.

Willis T. Bitcheller, chief engineer of the company, outlined the proposal to a meeting of the Alaska, B.C. and Peace River association.

Finances would come from a

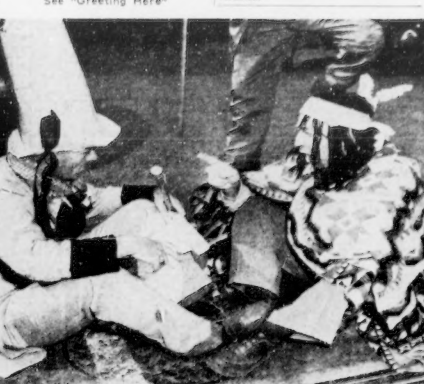

private United States syndicate, he said, with the U.S. government paying for a portion of the Alaska rail-laying.

WOULD TAKE OVER PGR

First step in the plan would be to take over the Pacific Great Eastern Railway, owned by the B.C. government and object of a proposed extension program from that quarter. It runs from Squamish, about 30 miles up coast from here, to Hazelton, in the heart of the Canadian country.

Mr. Bitcheller urged that B.C. seize the opportunity of having the interior of the province developed in a way "which would make a recreation impossible for many years to come."

He said if the B.C. government refuses the plan, the syndicate will build from Edmonton to Fairbanks, Alaska.

BIG CHIEF Len Smith, wrapped in old horse blanket, talks things over with fellow Torontonians Chuck White in the middle of Jasper avenue, Edmonton, the big chief thought, was "mighty nice place, and, boy, did we enjoy those Rocky Mountains." More than 20 gaily-clad marchers led parade of automobiles from C.P.R. depot.

U.K. Cuts Dollar-Area Imports 25 Per Cent

U.S. Fruit Import Ban Continues

2 Million Scarce

U.S. Dollars

Saved Monthly

OTTAWA, July 14.—(CP)—Cool, green watermelon, juicy pears, tangy apricots and ripe yellow canteloupes—these and other fruits such as apples and berries now are being harvested in the United States and ready for shipment.

But Canada, with a big eye on her pocketbook, is turning thumbs down on imports.

A force of 4,500 soldiers and sailors, as against 2,700 yesterday, moved into the port area to unload food ships tied up by the 18-day stoppage. Another 2,700 men were ordered by the Royal Air Force to stand by for duty tomorrow.

The dock labor board said 14,204 men were idle today, 3,464 more than when the emergency was proclaimed by the King at the request of the cabinet last Monday.

Work on 32 ships was held up. Eight others were being unloaded or loaded by undermanned crews.

Almost 40 ships were still being worked by full dock crews.

The House of Commons last night by a vote of 412 to four approved the emergency powers assumed by the government.

NEW ONES POSSIBLE

Canada's restrictions on U.S. fruits and vegetables were expected to be lifted this month, but indications are, that rather than lift them, parliament may slap on new ones when it meets in September.

"If Canada's dollar reserves decline, you can expect further steps to stop the flow of Canadian dollars into dollar areas," a government spokesman said.

STRONGER CONTROLS

In a press conference today, acting prime minister Mackenzie King said that viewpoint and added that the government already has considered means to cut U.S. imports through stronger import controls.

But he didn't want to say anything specifically about U.S. fruits and vegetable imports. He would leave that, he said, to Finance Minister Abbott.

HOTTER THAN FIRECRACKER IS CORRECT

"Hotter than a firecracker" is what Edmontonians are saying about our Eastern visitors from Toronto.

"Hotter than a firecracker" is also an everyday expression used by Bulletin Want Ad users, especially now, when everyone is making plans for their summer holidays and are in need of extra cash.

If you have anything to sell, place an inexpensive, quick-action ad in the Bulletin today. Just call 42111.

Who Wouldn't Want To Be a Ditch digger

CINCINNATI, July 14.—(AP)—Who says ditch-digging can't be fun? Men working on a downtown building excavation here think it is.

While digging Tuesday, they broke into a long-forgotten wine cellar and discovered hundreds of bottles of that delicious fermented drink. Some of the wine was more than 100 years old.

"The best wine we've ever tasted," they heartily agreed.

The bottles bore faded labels saying the contents were "valuable for general utility, loss of appetite, prostration and nursing mothers."

Former townsmen got together here today when Toronto sports columnist Ted Reeve, left, was met at station by Edmonton football coach Annis Stukus. Strange-looking character with camera.

Porter-photographer John MacLean, who, not content to merely "cover" the goodwill tour, donned colorful costume and marched in parade through city streets. Reeve described reception as "wonderful."

Toronto's Mayor Hiram "Buck" McCallum extends a well-tailored lapel as Edmonton Alderman Sid Parnow decorates him with a yellow rose. Mayor Ainlay led official reception delegation.

ELEPHANTS RUN AMOK IN KENYA

MONROVIA, Kenya, July 14.—Game warden Jack Bonham is using firework to drive off the greatest concentration of elephants he has ever seen.

An estimated 3,000 elephants, roaming in herds great and small, have invaded Kenya's coast province in search for water. Bonham, a former elephant hunter, uses the fireworks to frighten the elephants away from coastal settlements where they have destroyed large cash areas.

Last week Bonham shot 35 elephants after two persons were killed in a stampede.

CUT SUGAR TARIFF

Sir Stafford Cripps, chancellor of the exchequer, announced the slash today—a cut of \$400,000,000 off the \$1,600,000,000 spent last year. Since some prices have dropped, the cut will not necessarily mean a 25-per cent reduction in tonnage. But the effect upon North American factories and farmers will be marked.

IMPORT BAN

Sir Stafford told the House of Commons of plans to cut tobacco imports from North America and mentioned timber, paper and pulp, non-ferrous metals and steel as other types of goods due for slashing.

Britain will lower her sugar ration from 10 to eight ounces weekly. Candy will go back to ration 14 at the rate of four ounces per person.

The chancellor knocked off \$20,000,000 of the \$10,000,000 originally set aside for the purchase of tobacco.

He said this would mean a reduction of about five per cent to British users. Cigarettes already are scarce here and lines in front of tobacco stores are a common sight.

SOME INCREASES

Sir Stafford said the minister of food would raise the dollar area increases in other foods—butter, meat and bacon—which were governed by supplies coming from non-dollar sources.

It would be impossible to import all the cotton from dollar areas which had been hoped for "but we shall import at least as much as last year," the chancellor added.

Britain would have to cut off part of her imports of steel, he said. He had not at this stage decided on any additional restrictions of gasoline consumption.

LOSS TO CANADA

In Ottawa, an informed official estimated that the United Kingdom's decision to reduce imports from the dollar areas will mean a loss to Canada of between \$60,000,000 and \$80,000,000 this year.

Canada's metal and pulp and paper industries likely will be hit hardest by the U.K. cut. Last year Canada shipped about \$131,000,000 worth of non-ferrous metals and products and about \$70,000,000 worth of pulp and paper.

Sir Stafford said the slash of non-ferrous metal buying would be about 25 per cent and the cut in pulp and paper imports would be as much as one-third.

JUGS FULL OF JOY

Canada, U.S. Goods Will Be Affected

LONDON, July 14.—(CP)—This year Britain will import only 75 cents' worth of goods for every dollar's worth she bought last year in the United States, Canada and other areas demanding payment in dollars.

Sir Stafford Cripps, chancellor of the exchequer, announced the slash today—a cut of \$400,000,000 off the \$1,600,000,000 spent last year. Since some prices have dropped, the cut will not necessarily mean a 25-per cent reduction in tonnage. But the effect upon North American factories and farmers will be marked.

It Happened TODAY

People

Edward Robinson, Jr., assistant Russian consular, and his wife are planned to call about 20 more winners in the five-week-old trial of Raymond Fernandez and Martha Beck for the "Lonely Hearts" slaying of Mrs. Janet Fay.

Singer Dixie Leger and Nora Edgington Flynn have a marriage license and said they planned to get married Sunday. Miss Edgington, 25, was divorced from Earl Flynn last Friday at Las Vegas. Haynes recently divorced actress Joanne Dru.

India Premier Jawaharlal Nehru was unharmed when a bomb was thrown at him in Calcutta just as he was about to deliver a speech. Alleged bomb-thrower, a Bengali, was severely injured by the crowd.

Self-styled tankman Don Nehru and S. Johnson of Regina have offered his services to bring Columbia to the east end time in less than a year after he observed the prolonged dry spell there.

Generalissimo Chiang Kai-Shek flew to Canton to help rally what remains of Nationalist China for a final fight against the Communists.

The Nation

Canada stepped up production of both new spirit and beer in May, but the output of the five months this year showed a decline from the same period a year ago.

Three Canadian legislators now commit to the Imperial memory of recording machines the names of their members. Saskatchewan, Manitoba and Newfoundland have now joined in a pay-back to a question asked over any remark.

Canadian cigarette smokers set a record for May with an all-time high consumption of 1,329,000,000.

An independent railway system within the Maritimes for the making of freight rates was recommended by the Royal Commission on transportation by the Maritime Board of Trade.

Miscellany

It is possible to homestead in the Arctic circle under a plan and economy—planned, where only of \$30,000 to start, that is—according to Sir Hubert Wilkins, Australian-born explorer of Arctic and Antarctic regions.

Relative of Canadian servicemen just at Diego have a chance to share an English couple's pilgrimage to the French city. Writing from Brighton, England, Mrs. C. E. W. was offered to place wealth on the graves of Vancouver men who died in the famous assault in August, 1945.

Mayor William O'Dwyer and a party of 11 will leave La Guardia airport for Mexico City, where they will be guests of President Miguel Aleman for a week.

U.S. Affairs

Northern aircraft engineers pressed research into a long-expected field within the hope will enable the B-48 flying bomber to fly 25,000 miles without refueling.

Senate administration leaders expressed confidence that they could bring a new move to attain reservations in the North Atlantic treaty.

Labor

John L. Lewis announced the postponement of contract negotiations with the U. M. W. A. in the western coal operators. At White Sulphur Springs, W. Va., a strike July 20.

Quakers in the U. S. have a board have a strike. Lewis announced the postponement of the asbestos workers' syndicates on asbestos and Thelma's mine, who as bargaining agents. Joe Marchand, secretary of the Catholic Confederation of Labor, said.

At Honolulu, a 20-man legislative holdover committee was in recess until Tuesday after tentatively agreeing that rescue of Hawaii docks was the only solution to a 75-day strike of CIO longshoremen.

Czechs Offer Egypt Arms For Cotton. CAIRO, Egypt, July 14.—(AP)—An authoritative Egyptian source says Czechoslovakia has proposed an exchange of \$3,000,000 (\$500,000 worth of Egyptian cotton for Czech products consisting mostly of arms. He said Egyptian authorities seemed inclined to accept the offer.

Early Weather May Cut Crops

Below Average Yield Seen Following Adverse Spring

OTTAWA, July 14.—(CP)—Adverse weather conditions earlier this year may mean Canada will have a lower-than-average yield for prairie crops, the Bureau of Statistics reported today in a numerical survey of field crop conditions.

The bureau gave this breakdown of field crop conditions at June 30, expressed in percentage of the long-time average yield per acre with figures for June 30, 1948, in brackets:

Wheat: 83 (97); spring wheat 72 (95); all wheat 72 (95); oats 81 (80); barley 76 (78); fall rye 81 (79); spring rye 76 (78); all rye 76 (78); peas 81 (80); beans 80 (80); buckwheat 86 (96); mixed grains 76 (90); flaxseed 80 (83); corn 76 (90); turnips 80 (94); potatoes 80 (90); turnips 80 (94); hay and clover 78 (94); alfalfa 68 (92); fodder corn 80 (94); sugar beets 80 (94); pasture 80 (97).

Conditions in the prairie provinces: Manitoba—wheat 106 (115); oats 93 (88); barley 94 (87); rye 90 (92); flaxseed 91 (90). Saskatchewan—wheat 70 (80); oats 82 (88); barley 74 (72); rye 81 (72); flaxseed 91 (75). Alberta—wheat 67 (80); oats 82 (88); barley 74 (72); rye 81 (72); flaxseed 91 (75).

Conditions in the prairie provinces: Manitoba—wheat 106 (115); oats 93 (88); barley 94 (87); rye 90 (92); flaxseed 91 (90). Saskatchewan—wheat 70 (80); oats 82 (88); barley 74 (72); rye 81 (72); flaxseed 91 (75). Alberta—wheat 67 (80); oats 82 (88); barley 74 (72); rye 81 (72); flaxseed 91 (75).

THINGS REALLY GETTING BAD

HOLYHEAD, Wales, July 14.—(AP)—So severe is the drought on the island of Anglesey that country innns now show this sign: "No water, please take soda with your whiskey."

5-Mile Limit Sought Again

Restoration of a five mile limit for deliveries by trucks, outside the city limits will be sought by the city's limits will be sought by the Edmonton Chamber of Commerce.

Application for this restoration will be made to the highway traffic board, and also to G. H. N. Monkman, deputy minister of public works.

At present trucks delivering from stores cannot operate in West Jasper Place or Beverly without licenses issued by the board.

Present regulations, it is claimed, create an anomalous situation between the City of Edmonton and Beverly as they permit trucks operating from Beverly to operate into the city for a distance of five miles, while an Edmonton vehicle is precluded from operating beyond city limits.

Local Group Buys Block

Rene Le Marchand apartments, 310 street and 100 avenue, has been sold to an Edmonton group headed by J. O. Prefontaine.

Purchase price of the property was not disclosed.

The deal was handled by Montreal Trust Co. and the law firm of Milner, Stier, Poirier, Marland and Dayton.

The apartment block, which was one of the city's exclusive residential buildings, commands one of the finest views of the river valley.

It was erected more than 20 years ago by the late Rene Le Marchand, through winding up of his estate.

Excommunication Bid Stirs Reds to Anger

ROME, July 14.—(AP)—The Pope's excommunication of Communists stung the Communist-controlled press of Europe to violent reaction today.

The Vatican disclosed last night that the Pope has cut off from the sacraments and comforts of the faith all Roman Catholics "who make profession of the materialistic and anti-Christian doctrine of the Communists."

The action was a stern warning that the party cannot compromise with Communism.

ACT OF HATRED. Il Paese, Communist-line newspaper in Rome, called the decree "an act of hatred" and the official Italian Communist newspaper, L'Unita, said the order "crowns a violent, provocative campaign of the Holy See against Catholics who do not intend to submit to its political directives."

L'Unita said it would be impossible "to tolerate more directly the freedom of thought of men in a domain that is political, not religious."

The Vatican said it would be impossible "to tolerate more directly the freedom of thought of men in a domain that is political, not religious."

Steel Union Poised For Strike Friday

PITTSBURGH, Pa., July 14.—(UP)—United Steelworkers (CIO) are poised today to strike major basic steel companies Friday night unless the companies accept President Truman's plans for a 60 day truce.

With the deadline less than 48 hours away, neither union nor government can determine how many companies will be struck.

Grant U.S. Steel Corp. and the two largest independents, Bethlehem and Republic Steel, head the list. They rejected the plan and unless they reconsider and agree to participate in the government's efforts to help solve the problems, their plants will be idled at 12:01 a.m. Saturday.

FINAL ANSWER TODAY. A spokesman for U.S. Steel said the company expected to give its final answer to President Truman's appeal sometime today. Upon the answer depends the company's plans to prepare its many plants for a strike.

CIO-SW president Philip Murray promised that enough maintenance men will be permitted to work to protect mills from damage. The shutting down of a steel-making plant is a long process and requires days to end blast furnaces and run out the iron into open hearths which convert it into steel ingots.

4 INDEPENDENTS AGREE. Four large independents, Inland Steel and Laughlin, Wheeling Steel and Youngstown Sheet and Tube Company have agreed to keep their plants operating for 60 days under the present contract. Although they did not publicly say they would participate in the fact-finding phase of the proposed truce, the union and White House interpreted their answers as favorable.

Hay King Crowned. WOODSTOCK, Ont., July 14.—(CP)—John Hargrave, of nearby Beachville yesterday was crowned "Ontario Hay King" at Oxford county's third grassland day.

On March 22, the Bulletin, in a long-distance phone call, learned from Col. Boright in Montreal that "people who say Edmonton's proposed \$1,500,000 hotel will not be built are crazy."

Then all was quiet on the hotel front until the option was given last 22.

TERSE STATEMENT. Another appeal of quiet, and then Mr. Herring's terse statement yesterday:

"The hotel will not be built. I've recommended that it not."

When questioned as to why so much publicity and detail had been revealed if the hotel was not to be built, Mr. Herring merely smiled and said that was part of the deal.

Meanwhile W. G. Connolly, passenger traffic manager of the CNR, said CNR officials in the east were making friendly wagers that the Macdonald 300-room extension will be completed within three years.

To other parts of the city some hope is given for alleviating the shortage of hotel space.

NEW HOTEL. The new hotel on Kingsway, being built by a group of Vancouver and Tennessee businessmen, is being temporarily held up by negotiations proceed for annexation of a piece of land adjoining the present site set aside for the hotel-convalescent.

As soon as negotiations are completed an immediate start on construction of the \$250,000 super-model is expected.

Glendon Hotel To Be Delayed

(Continued from Page 1) Joseph Calne of Montreal, an official of Canadian Stewart Construction Co., John Hauser and W. Irwin of Hilton Hotels (International) of New York, who were to take over management of the hotel, Montreal architect.

PROMISED "MOST MODERN". Within the next two days the official party gave out several interviews with youthful-looking John Hauser, president of Hilton hotels, pledging Edmontonians the world's "most modern" commercial hotel with ample store and office space for rent.

Mr. Hauser gave out figures on the number of people to be employed (over 500), the number of construction workers needed (over 500) and even went so far as to name the architect, "The Edmonton Hotel."

Said Mr. Hauser: "We are building on a strictly commercial basis as distinguished from the bank resort type of hotel. We will not have to charge fancy prices and we will emphasize good service and good food."

He said the hotel was not going to get service of any kind.

February 18, Boright announced all details concerning gas, water, lighting and other services which the hotel had been successfully completed.

STRUCTURAL DETAILS. On February 13 the architects here gave details of the structure and concrete with handsome stone facing, taking two years to build.

On Feb. 12 hotel officials said "everything is all set for us to proceed with construction." A satisfactory tax deal had just been arranged calling for payment of \$100 a room. This was accepted by hotel officials here at the same time in connection with the 300-room addition to the Macdonald hotel.

On March 22, the Bulletin, in a long-distance phone call, learned from Col. Boright in Montreal that "people who say Edmonton's proposed \$1,500,000 hotel will not be built are crazy."

Then all was quiet on the hotel front until the option was given last 22.

BATTERED WRECKAGE of old model car is sorry sight as it's towed away from scene of crash which sent three persons to Misericordia hospital today. Crash occurred when car was in collision with army truck near 101 street subway. None of victims is in serious condition.

Alberta Crops Prospect Poor

75 Per Cent Normal Seen As Rainfall Unusually Low

Alberta's crop yield will probably be less than 75 per cent of normal this fall.

As burning sun continues to parch the province's farmland, farmers are gradually losing hope of anything approaching a decent crop.

Some have already ploughed up sown fields.

12 BUSHELS PER ACRE
Some provincial agriculture officials have estimated this year's average crop yield will be only 12 bushels per acre.

One Alberta government official said, "Twelve bushels will be a big crop if we don't get rain soon."

Normal average Alberta yield is 17 bushels per acre.

A. M. Wilson, provincial field crops commissioner, said, "We don't like to be pessimistic at bad times like this, but this is one of the worst years I've seen."

Mr. Wilson has been with the provincial government since 1930, and has been in charge of the provincial agriculture department since 1934.

COMPARATIVE FIGURES
He compared this year's crop prospects with those of the 1930's. Records show that in 1937, yield was 18 bushels per acre.

Many districts this year won't even be getting 8 bushels to the acre.

Some farmers in the Edmonton district have already ploughed up what was to have been this year's crop.

PEACE RIVER BEST
Only parts of Alberta with any hope of near good prospects are the Peace River area and the south-east corner of the province.

There is some hope in the Peace River area and the south-east corner of the province. There will be below average.

PURELY CANADIAN
"We want to promote something purely Canadian," Mr. McCullum said. "And the chuckwagon is the real old West. Other attractions of the Calgary Stampede stem largely from American talent, in which we're not interested."

He thought it unlikely that any other stampede attraction would be imported to the Toronto fair.

Mr. McCullum said he is going to try to promote the idea of a dominion goodwill train every year.

GREY CUP TRIP
He expects to travel east this year. He expects a western contingent to travel east this autumn when the Grey Cup finals are held in Toronto. The Calgary boys are so enthusiastic, he said, they plan to go east whether or not they win the cup.

"Goodwill trains are fulfilling an urgent need in Canada. They're ironing out all the wrinkles of dislike and suspicion. We promote nothing but friendship."

Of Alberta Mayor McCullum said, "You have a greater province than you realize. Your resources are untapped. What a future lies ahead for Alberta!"

SPONTANEITY
Spontaneity has marked the entire goodwill trip he said. When the train left Toronto, 10,000 persons gathered to bid goodnight, and all across Canada they have met with a great welcome.

The Stampede was the scene of a family reunion for Mr. McCullum, for attending was his wife, his daughter Dorothy, his sister Mrs. Pearl Laird, his brother Frank, former mayor of Oshawa, and his brother, Clarence of Turner Valley.

France Talks Loan With Franco Spain
PARIS, July 14. — (Reuters) — Financial negotiations have begun between France and Spain, according to the French finance ministry disclosed last night.

The sources denied that agreement had been reached for a 15,000,000 franc credit to Spain by a group of French banks.

The veteran hero of two world wars, Field Marshal Rt. Hon. Viscount Plunkett, K.C.B., K.C.M.G., will arrive in Edmonton from Vancouver Sunday night by TCA.

Spy... By the Staff

CIVIC VISITORS

Touring the city visiting all wells and seed friends in Edmonton today are a group of Toronto civic leaders.

They include Aldermen Geo. Grannell and Arthur Frost; Geo. Weale, city clerk; Best, Merson, commissioner Toronto Hydro Electric; Arthur Lancelotti, commissioner of finance; J. G. Paterson, Bank of Commerce manager.

WHAT NEXT
The little guy in a red-striped sweater took his place in line, put down his dough for a ticket and then found himself a seat in the third row of the Sales Pavilion.

He mopped his brow and made himself as comfortable as possible in the sticky hot arena.

Conductor Lee Hogner had no more than reached the Prelude to Art. J. Verdi's La Traviata, when the little man leaped to his feet and stalked from the building.

"Give me my money back," he demanded. "I come to see the raslin'."

HOT STUFF
Edmonton Pops Orchestra conductor Lee Hogner wasn't the only one waving his arms at the Sales Pavilion last night.

In futile efforts to cool off, heat-plagued listeners fanned themselves throughout the concert with crumpled program sheets.

On soft passages, the big hall was filled with the whispering noise of a thousand flapping programs.

It didn't help Mr. Hogner. It didn't help the music. And it didn't help the audience much, either.

WHISTLE STOP
Overnight in Edmonton between flying trips last night was Col. J. C. Craig of Ottawa. He left this morning for the Yukon on government business.

YOUR GUESS
A Stoney Plain furniture store calls itself a "Futr. Store" on a big sign.

They probably sell chuffs, duff, and the odd phgrt.

Following the opening of "the most magnificent drug store in Canada" in Calgary yesterday, J. F. Bullock, Toronto, president of the Rexall Drug Company Ltd., is in Edmonton today.

He is also visiting Rexall vice-president, J. F. Bullock, Toronto, president of the Rexall Drug Company Ltd., is in Edmonton today.

G. W. FOWLER ... New post.

G. W. Fowler Is Appointed

G. W. Fowler, veteran pipeline company executive, has been appointed vice president of Sparling Davis Company here.

Mr. Fowler replaces E. W. Davis who has left Sparling Davis to join Bechtel-Price-Carlson construction company with which he worked during the Second World War.

The new vice president for many years was in charge of all field and installation work in the U. S. for Hal Price Company, one of the largest pipeline concerns south of the border.

Students who wrote Alberta departmental examinations in June will have their results by about August 1. Examination markers are working in Edmonton and the 10,500 grade nine and 6,000 grade 12 students who wrote exams will know how they did about August 3.

Truck-Car Crash Puts 3 in Hospital

An elderly couple and daughter are in hospital today following a collision with a 12-ton army truck at 9:50 a.m.

Injured taken to Misericordia hospital were Mrs. Orise Nadeau, 68, found suffering from two fractured ribs; Miss Elvire Nadeau, 46, with a fractured knee cap and jaw bone; Victor Nadeau, 70, uninjured, suffering from shock. All live at 12088 Fort Trail Road.

Accident occurred at 101 street and 104 avenue intersection.

TRUCK DRIVER UNINJURED
According to police, Nadeau was operating his car west on 104 avenue. While he proceeded through the intersection he was in collision with an army truck, driven by Thomas A. Weyman, 224 Workshop, R.C.M.A.

Weyman claimed he was turning left from 104 avenue to go north on 101 street when Nadeau's car appeared five feet in front of him, forcing truck. Trucks air brakes were insufficient to prevent collision.

Truck driver and passenger, Ronaid Westlake, were uninjured.

Toronto's 'Buck' Plugs Goodwill Train Repeat

BOY ESCAPEES SAID GOING TO STAMPEDE

Two juveniles ages 11 and 14 escaped at 5:30 p.m. yesterday from South Side Optimist Home. They are said to be heading for Calgary Stampede.

The younger is five feet tall, weighs 90 pounds, has fair hair and complexion. He is wearing blue overalls, light shirt and crepe-soled shoes.

The elder is five feet four inches tall and weighs 90 pounds. He has dark hair and dark complexion, and is wearing khaki trousers, white and red striped shirt and brown shoes.

U.S. Professor Lauds Alberta Educationists

Leaders of Alberta educational institutions were lauded for their vitality and competence by U.S.A. college of education professor at Rotary luncheon Thursday.

W. E. Dugan, professor of guidance and director of student personnel at College of Education, University of Minnesota, told Rotarians at their luncheon in Macdonald Hotel, he is impressed with the work being done by provincial teachers.

Dr. Dugan is at present lecturing at University of Alberta summer session.

YOUTH MOST VALUABLE
"Youth," he said, "is any nation's most valuable resource." School leaders in Alberta, including principals, superintendents and teachers, fully appreciate the value of a nation of properly trained youths.

Alberta school officials were complimented on their fine school organization. They have sound educational programs and a staff of serious minded teachers.

In U.S.A. guidance personnel are being selected for their abilities in handling personal problems arising before employees in industry. Those selected are trained in understanding people to help them live happier and better lives.

He expressed the need for caution in dealing with attitude tests commonly used by industrial personnel employers.

Maritime Tycoon Dies In Hospital
NEW GLASGOW, N.S., July 14. — (CP) — James T. Cummins, 61-year-old Maritime industrialist, died in hospital here yesterday.

He was retired president of Maritime Steel and Foundries Ltd. here, and one-time member of the board of directors of Canadian National Railways.

He was retired president of Maritime Steel and Foundries Ltd. here, and one-time member of the board of directors of Canadian National Railways.

A Neglected Community

It is intolerable that West Jasper Place should be in the throes of a crime wave and that no person in authority should be prepared to do anything about it.

According to news reports, something very like a reign of terror has established itself in that enterprising and ambitious little community.

Girls and children are being molested on the streets.

Strange characters prowl around dwelling houses and near the schools.

And only two weeks ago a particularly brutal murder occurred in that district.

The only solution to these conditions offered by the municipality of Stony Plain, in which area West Jasper Place lies, is to appoint a second police officer.

This makes two constables in a community of 8,000 people.

The inadequacy of this protection is clear when Edmonton considers itself to be incompletely policed with one constable to every 855.56 of population.

West Jasper Place must try to get along with one constable to every 4,000 of population, which is absurd and iniquitous.

It is obvious that West Jasper Place can no longer be governed adequately by the municipality of Stony Plain.

This is no reflection upon the good will and intentions of the municipality. It is simply that a municipal organization does not possess the facilities to deal in a competent way with an urban community within its borders.

Now whether West Jasper Place should be incorporated as a village or apply for admission to the corporation of the city of Edmonton is a matter that can only be decided by a majority of the residents of that place.

Outside advice in such a matter is only impertinence.

But obviously something must be done.

And if West Jasper Place should seek union with Edmonton, such an application should be received with sympathy and the warmest desire to help.

How To Torture Your Husband

By Webster

One Man's Viewpoint

By Stan Ross

As you watch the continuing struggle to untangle the unsatisfactory international trade situation one point becomes increasingly obvious.

We are using two kinds of medicine for one ailment and they seem to be counteracting each other.

We impose trade barriers such as import duties to keep goods out and we impose monetary regulations which again are aimed at keeping goods out. Yet we worry because we cannot export and the reason we cannot export is that we do not buy enough to make it possible for other nations to buy from us.

U.K. Prices Now Too High

Thus if we are committed to a policy of fixed exchange rates it would seem that we should drop our old method of tariff walls.

The brings us back to the old Canadian argument about free trade.

But surely if we find that instead of trying to keep foreign goods out as we once did, that we now must encourage importation of foreign goods so other nations can afford to buy our grain and manufactured goods, then surely it is a mistake to continue tariff barriers which are doing the very thing we want to avoid.

Suppose Canada took the stand that the only solution to this international issue was to wipe out most if not all our tariff provisions. That would instantly reduce the price of British goods, making it possible for us to buy more of them.

It would also permit France, Belgium and most of the sterling nations to sell more to Canada and therefore buy more from us.

Since our factories are now more efficient than are most European plants, these imports could not compete with our own industries.

On the contrary, it might make it possible for those nations to buy more of our leading products. That would mean both farmers and industry would benefit. This is a chance to sell more to us.

Canada has reached a point where Canadian farmers can compete with European and most Canadian industrial plants can compete with almost any nation except possibly the United States.

But if we wiped out our tariff walls, we would also be flooded with American goods, which might compete and which would drain our American dollar reserves.

A Real Educational Policy

The plan of the Saskatchewan convention of the Canadian Legion to take a number of selected grade eight students on a tour of Canada is a sound educational policy that could well be imitated by other organizations in this country.

In the first place, travel is one of the most broadening experiences to which youth can be subjected.

In many respects, two months of intelligently planned travel will equal two years of university training in educative results.

In the second place, to enable young people to see and know Canada is to take an important step towards national unity and the formation of a robust Canadianism.

For the greatest obstacle to national unity in this country is parochialism.

The boy or girl who thinks of his or her own part of the country as all the country is the victim of a vicious sectionalism that injures all Canada.

Therefore this Legion plan is beneficial to Canada and beneficial to those children who will be selected for the trip.

There are many organizations in this country which have varied and admirable objectives looking to the welfare of children.

All are necessary and all are good.

But if any organization is seeking a new objective or purpose along this line, the plan of the Saskatchewan convention of the Canadian Legion should present itself as one of the most practical and commendable of all.

Handicaps in English Toryism

The English Conservative party has formulated a new policy for winning the next general elections in 1950 and on July 23 Mr. Winston Churchill will reveal the details of that policy to a great gathering in Wolverhampton.

It is not the business of Canadian newspapers to shove intrusive fingers into British domestic politics.

But since the Socialistic experiment in Britain seems to fall far short of solving Britain's economic problems and since those problems are a vital concern of Canadians, it is natural that a good many people in this country should be warmly interested in those factors which hold out the liveliest promise of bringing that unhappy experiment to an end.

It is not an impertinence, then, for a Canadian newspaper to repeat the conviction of many British Tories that Mr. Churchill's leadership of the Conservative party is a handicap.

This conviction, expressed freely and frequently both in Canada and in Britain, does not disparage to the slightest degree the magnificence of Mr. Churchill's war services.

Mr. Churchill was undoubtedly one of the greatest war leaders of all time.

But the very qualities of mind and heart which fitted him so admirably for war leadership, appear to unfit him for peacetime leadership.

The Tory policy, it is said, does not require one great dominant figure but a number of capable younger figures who, at present, are being overshadowed and held back by the background by Mr. Churchill's vast prestige.

When the war was over, The Bulletin ventured the opinion that Mr. Churchill should have resigned his party leadership and have gone into the home of lords.

That opinion is strengthened and supported by the present political situation in England.

Aid for Canadian Composers

Canada's first "symposium of Canadian music," organized by various musical bodies in Vancouver, appears to offer substantial and long overdue aid to young composers in this country.

The purpose of the symposium is to play the music of Canadians who have had difficulty in having their compositions brought before the public.

In this way, it is hoped the merits of Canadian music will be made known to music-loving Canadian people.

The project is commendable in every way.

It should have the support and cooperation of every musical organization from one coast to the other.

ODDS AND ENDS

By Harold L. Weir

These Drowsy Days Of Midsummer's Mellowness

It is one of the ironies of life that we seldom know when we are living through moments that are fated to be memorable.

These events and thoughts and dreams that find a place in the deepest recesses of our hearts never arrive, as we seem to expect, with a flamboyant fanfare.

They steal upon us rather unawares and a drowsy slumber with their richness and are gone.

Many times I have had amazing and exciting things happen to me and I have thought to myself, "I shall remember this all my life."

But strangely, those amazing and exciting things have faded into a thin, ethereal grey and the bright spots of color in my memory are furnished by the little things that came upon me as gently and departed as softly that I was hardly conscious of their presence.

So the greatest things in life I suppose are those things which have the gossamer substance of daydreams.

And that, of course, is the chief reason why midsummer's mellowness.

For daydreaming is essentially the order of the season—the rare enchantment of a drowsy afternoon.

Down the Rabbit Hole

Now I suppose it may be argued that one adds little to the accomplishments of this season by permitting oneself to fall into

a hazy reverie when the sun bakes the earth in July heat.

These are delights that are reserved, I presume, for the retired rest in heart.

It is not altogether unwise, I maintain, that these pure in heart to whom it has been promised that they shall see God should also see Gryphons and Mock Turkeys and Cheese Cakes and other delightful creatures on their pilgrimage towards eternity.

And I base that supposition, which may well consider outrageous, on the fact that no book has been written in this country to compare with Lewis Carroll's Alice in Wonderland.

I think that in some way or other even time stands still when we pass in the language of a ballad in the language of a ballad in the language of a ballad.

It is sometimes more valuable I should suppose to examine the lives of the great men and women of the past than to examine the quiet people who live outside them.

And I base that supposition, which may well consider outrageous, on the fact that no book has been written in this country to compare with Lewis Carroll's Alice in Wonderland.

From Today's News

By James D. White

The correspondents who died in that bloody crash had gone to Indonesia to get a story strangely mixed with despair and hope.

The story has been dragging out its complicated course nearly four years in an area of peculiar importance to the human race.

This important drama from several things people use a lot—such as oil, rubber and quinine.

It is intent in varying degrees of freedom. The passion does not vary according to the actual conditions of the people concerned to govern themselves and that is part of the despair.

The Dutch came to the island of Indonesia some 300 years ago. The Dutch ruled the Indies with a firm but paternal hand. They could afford to.

But even before the Second World War the Indonesians had begun to agitate for freedom.

The Japanese swept the Dutch out of Indonesia and set up a puppet government, much as a tidal wave once uprooted the shore of Sumatra and left a vast wasteland.

They promised the Indonesians everything they wanted. Only at the last minute before V-Day, they let them set up a republic.

The Dutch came back, weary in their own right, in a bid to restore their empire.

But still needed help which the Dutch could supply.

Their plan was to put the republic into a united states of Indonesia, and make that a member of the United Nations.

Many things worked against this in the past. The Dutchmen couldn't see it. The Japanese had fallen. The Hague over the Indonesian question. In Indonesia, the Japanese left a legacy of guns, poverty, and chaos. Guerillas rose up against themselves. The Dutch army and the Indonesian army didn't trust each other.

Each side was violating every true agreement set up.

The United Nations stepped in and sent a commission to mediate. But the last four years are a record of the failure of this mission.

Now, there is to be another try.

Trivia

For the second year in succession Britain's tourist trade in 1948 gained more dollars than any other country.

The annual report of the Travel Association estimates that more than \$60,000,000 was spent in Britain by tourists.

Spent \$188 million, of which \$84 million was Canadian and in 1947 it was \$175 million.

It is expected that more than 500,000 overseas visitors will visit Britain this year and that their expenditure, including fare payments to United Kingdom and air lines may exceed \$250 million.

Letters to the Editor

Garbage Collectors

This morning I was awakened by loud noises of one of the city garbage collectors.

Rushing outside I saw three of the collectors sitting in the lane waiting for the wagon to come from some place.

Instead of using that time to take up some of the filth which is scattered all over the lanes they were chasing a dog away from the outside screened door.

When I asked them why they chased the dog away they told me he was going to "upset the garbage cans."

This is a disgusting habit and even I cannot tip one of the heavy packed overflowing cans over, so how could such a small dog do so?

That dog comes and tries to attract my attention almost every day because he is hungry and when I hear him I always feed him.

Emore Philpott

Breakneck Speed Of American Life Strikes Visitor

PHILPOTT

NEW YORK. — If the people of Western Europe could be suddenly transported to some suburb of this vast city and given \$100 apiece to go on a shopping spree, they would think at first they were in heaven.

Especially after a stay in hatted Britain, the abundance here seems unbelievable.

In the material sense we people who are so fortunate as to live in North America are the luckiest people in the world.

In and around New York City, for instance, the ordinary people burn up enough gasoline in a single evening to keep the wheels of all the motor cars in Europe going for weeks.

But there is a hectic feverish tone about 1949 life in these United States that makes an observant visitor stop and think.

"We don't know where we're going, but we're on our way," might well be a theme song in the U.S.A. today.

For there are many facts that really do make you ask yourself: "Do these people know where they are going?"

Frenzied Hurry

Here is an example of the pace at which the Americans live.

A doctor's family is on its way to "see Europe." There was the father, mother, three young ones and one of their grandies. They were traveling by the Queen's.

They were flying from capital to capital in Europe. They would be away from their middle western home base for about one month.

And with the money they would spend in that month "seeing Europe" you could build and completely equip a brand new home to house the lot of them.

The Americans work harder

Many attractions are in store for patrons of Edmonton Exhibition grandstand show which opens Monday with gala performances twice nightly. Aida, the-girl-on-the-moon, is one of headliners of this year's banner show.

Exhibition Arranges To Handle Record Crowds

Arrangements have been completed to accommodate record breaking crowds at the 71st annual summer fair sponsored by Edmonton Exhibition Association. James Paul, managing director of the association, stated today.

Improvements on the grounds and buildings have been effected to facilitate viewing the multitude of attractions provided at the fair, and to add to the comfort of patrons.

Thousands of dollars have been spent on painting buildings. Roads throughout the grounds have been graded and oiled to provide more comfortable and safe driving.

ENTRANCE ENLARGED

North entrance to the grounds has been enlarged to provide pedestrian traffic lane and entry and exit traffic lanes for vehicles.

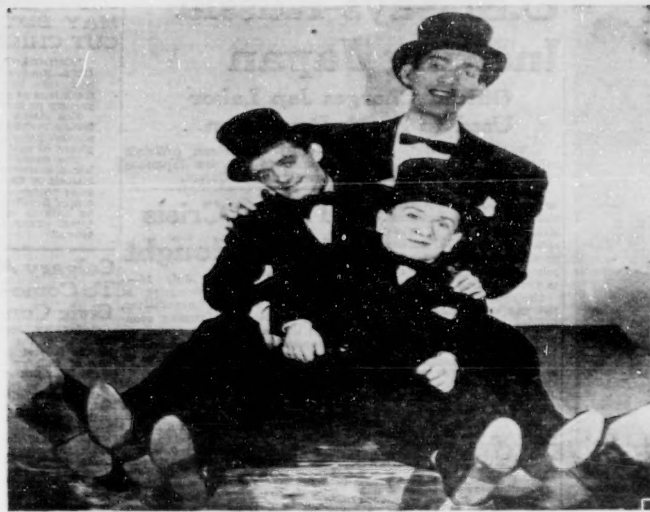

public to enjoy the grandstand attraction in greater comfort. The early show will give parents with children the opportunity to attend the show without keeping the youngsters up too late, Mr. Paul said.

Management of the association has booked for this fair the "top" in the outdoor entertainment world.

TOP OUTDOOR SHOW

In the illustrious grandstand show, staged by Barnes and Carruthers, patrons will witness America's premier outdoor theatre performance.

"As our present grandstand accommodation is somewhat restricted we are holding two shows each evening except Monday. The two shows nightly will provide opportunity for a large number of the

Hite, Low and Stanley, trio of zanies with this year's show, are billed as one of top trios in entertainment world today. They comprise one of most unusual, as well as one of most outstanding laugh-provoking combinations as they go through their acrobatic feats.

Steelworkers OK Back-to-Work Plan

HAMILTON, July 14.—CP.—A return-to-work formula was approved last night by representatives of striking employees of the National Steel Car Company here. The plan already has been approved by the company.

Some 1,800 steelworkers, members of the United Steelworkers of America (CIO), went on strike May 27 to back their demands for \$11,000-a-year, 32-hour week, a general pay increase of 10 cents an hour.

OSLO.—(CP).—The largest ship ever constructed in Norway—the "Therese"—was launched recently. This record is not expected to stand.

REDUCED RAILWAY and BUS FARES

Midway Promises Full Array of Talent and Entertainment

Dancing girls galore will be one of main attractions featured with Royal American shows this year as headlines for midway show at Edmonton exhibition. Full colored chorus with native dances and bright costumes promise full quota of entertainment for midway enthusiasts.

Perennial favorites with young and old alike at all midway shows, lions and trainers will be in full array when Royal American opens its tent flaps to public come Monday.

WEE BIT o' Scotland is also featured with midway as it presents comic piper in fun-provoking skits.

Pride of Negro entertainment world are these two boys, Patterson and Jackson, direct from New York show-places to Edmonton Exhibition midway. Pair is feature of this year's Royal American troupe.

1,200 Fun-Making Experts Due With Royal American

When Royal American Shows, world's largest midway railroad extravaganza, rolls into Edmonton Sunday for the 71st annual summer fair sponsored by the Edmonton Exhibition Association, it brings with it an army of 1,200 people, all of them experts in the art of entertainment and thrills. Its Midway Avenues are gay with the carnival spirit of the Far East. The whirl of the rides, the blare of the music, the cries of barkers, all blend into the great spirit of festivity.

A Warner Brothers technicolor featurette of the World's Largest Midway caravan is currently destined for more than 22,000 theatres throughout the United States and Canada and foreign countries. Its title is "King of the Carnival."

The Big Show is comprised of 70 double-length all steel railroad cars which include 38 pullmans, diner and club car.

by the organization include black smith shops, mechanical shops, post office, neon shops, carpenter shops, paint shops, train crew, and fire department.

Royal American Shows is owned and managed by Carl J. Sedlmayr, assisted by his son, Carl J. Sedlmayr, Jr. The older Sedlmayr has been acclaimed the guiding light of the outdoor show world and is the man responsible for bringing the industry into the limelight of big business.

This season marks the show's 26th annual nation-wide tours of the major state fairs and important Canadian exhibitions where it is

presented to millions of spectators. Royal American Shows is far in advance of any of the travelling carnivals in that it is more than a mere midway show. The big organization is actually considered the "University of the Midway Industry" and all new conceptions pertaining to the business are followed closely by others to the best of their ability, but unsuccessfully.

No other show in the entire industry is sought after for appearances at as many fairs of importance. Year after year consistently, new innovations are presented to the public in the featuring of musical productions and new and thrilling rides as well as added features.

GYPSY ROSE LEE
This season's attractions include among many others Gypsy Rose Lee, internationally famous artist of Hollywood and Broadway, who will appear in person in a production devised, staged and directed by the outstanding show master, master of Hollywood and Broadway. The famous star's cast of per-

formers appearing with her, are all experienced entertainers who have appeared in the major musical productions of stage and screen. Other headlines of the entertainment world include those who appear in the Harlem in Havana Revue of 1948, all-star Negro revue of singers, dancers, comedians and a 12-piece orchestra.

Dead Newsmen Each Insured For \$10,000

NEW YORK, July 14.—(AP)—The 12 newspaper men killed Tuesday in the crash of a KLM plane in India were insured for \$10,000 each by the Netherlands Information Bureau, which sponsored their tour. Lynn C. Mahan, publicity representative for the flight, was insured for \$40,000.

About one-half of the earth's people live on about five percent of its land area.

Innisfail Man Wins In Shorthorn Division

CALGARY, July 14.—(CP)—T. G. Hamilton of Innisfail, Alta., took top honors for Shorthorn bulls today when livestock judging was resumed at the Calgary Exhibition and Stampede.

Mr. Hamilton won the grand and junior championships with his junior yearling bull Lord Hanoch. A. R. Cross of Midnapore, Alta., won the senior championship with his senior yearling bull, Rulmney Admiral.

There was keen competition in the Jersey cattle division where C. D. and D. J. Egan of Wetaskiwin, Alta., captured the grand and senior championships with their outstanding bull, Lindell Calantha Royal Pride.

CALGARIAN WINS
H. H. Longway of Calgary took

the reserve grand championship and the junior championship with France Journalist Sultan, a senior yearling.

N. Reid Clark of Didsbury won the reserve senior championship with his three-year-old bull, Lindell Standard Commando and the reserve junior championship went to C. D. and D. J. Egan's Egan Standard Design.

Oliver Evans of Chilliwack, B.C., judged the Jersey cattle in which the competition was keen in some classes.

Many of Calgary's "milk wagon" horses were "kings for a day" as

they proudly pranced in the arena before the judges for the heavy draft horse classes.

WELL-KNOWN HORSE
The Co-operative Milk Company's well-known horse, Dragon, took first place in the class for draft gelding of grade mare, four years and over. All entries in this group were gray percherons.

Hardy E. Salter of Calgary, well-known breeder of Percherons, took first place with his mare with foal at foot and first with a grade foal. Robert Haining of Clive was first place winner with his three-year-old gelding Sandy, and his yearling grade filly, Lucy. Wm. A. Middleton of Brandon, Man., won a first prize with his two-year-old gelding, Mack.

MELTON MOWBRAY, Leicestershire, England.—(CP)—Andy, an 18-month-old Great Dane, passes regular Sunday morning calls at a local public house for free drinks. He had five pints of beer on one visit.

Higher Wages Said Mistake

NEW YORK, July 14.—(AP)—Henry Ford II said today higher wages now for automobile workers would be a great mistake, because this fall there will be a buyers' market in the United States.

The president of the Ford Motor Company discussed the United Auto Workers' (CIO) demand for a fourth-round wage boost. He arrived from Europe on the Queen Elizabeth.

Bowling Champion Dies In Hospital

LONDON, Ont., July 14.—(CP)—Albert J. Hault, 76, former five-pin bowling champion of Canada and well-known in Toronto sports circles for many years, died in hospital yesterday following a heart attack suffered last Saturday while visiting friends here.

A druggist by profession, he had managed several stores in Toronto.

New Lab Fills Big Need Here

Prevention of Harmful Diseases Is Prime Aim

Purpose of the new Alberta veterinary laboratory which opens here today is to provide a scientific and accurate diagnosis of animal and poultry diseases.

The new lab is being opened at 2:30 p.m. by provincial government officials. It is situated on 16 acres adjacent to the University of Alberta Farms.

A great many disease conditions can only be definitely diagnosed through isolating the causative bacteria, virus or parasite or by means of a serological test.

This requires a well equipped laboratory and highly trained staff of veterinary pathologists.

A laboratory diagnosis consists of post-mortems of a sick animal or bird at which time all visible changes characteristic of various diseases are noted.

For instance, in pneumonia there are changes in the lung, or in disease such as blackhead of turkeys lesions will be noted in the liver and eyes.

SEVERAL DAYS

Following through the case of pneumonia a bacteriological examination will be made to determine the actual bacteria causing the disease. This may take several days as some bacteria are slow growing and there are several operations in making an identification.

The bacteria are grown on various media in an incubator.

For instance bacteria that cause black leg and tetanus will not grow in an oxygen atmosphere so special jars in which the oxygen can be removed have to be used.

Some disease producing bacteria need blood in the media to help identify it. One of these is the streptococcus that causes mastitis.

Another peculiarity occurs with the bacteria which causes bangs disease in cattle and undulant fever in humans.

This fellow needs 15 per cent carbon dioxide in his air. Carbohydrates or sugars are used extensively in identifying bacteria because some ferment one sugar and not another.

UNDER SCOPE

Then bacteria are stained and examined under the microscope after being magnified about 940 times. The shape, size and staining characteristics are noted. All these points help the veterinary pathologist arrive at an accurate identification of the renegade bacteria.

Test animals such as mice, hamsters, white rats, guinea pigs, and rabbits are all used in determining the cause of the disease.

The veterinary pathologist or the man behind the microscope is the

guardian of the health of the livestock and poultry industry.

His skill determines the cause of various diseases and detects new diseases. He conducts research and through his untiring efforts in co-operation with practicing veterinarians, food of the nation is safe guarded against disastrous disease epidemics.

THE RESULTS

Few people realize the crisis that would result if meat, dairy, poultry products and poultry were cut off through disease. The safeguarding of this food supply is the responsibility of the veterinary profession.

One of the key units is this

TRIAL BY ORDEAL

MUERNBERG, Germany, July 14.—(AP)—Friedrich Geyer, charged with being a major Nazi offender, said in his appeal before the denazification court:

"May I drop dead if that charge is true."

A few minutes later he fell dead in the courtroom.

Doctors said he died of a stroke.

Immense responsibility is a good veterinary laboratory well staffed with highly skilled scientists. These scientists behind the microscope are the veterinary pathologists.

An accurate diagnosis is of vital importance too so that the right drug can be used for treatment or bacteria used for prevention.

\$100,000 Fire At East U.S. Airport

RED BANK, N.J., July 14.—(UP)—Loss of 37 small private planes in a fire at Red Bank airport was estimated at \$100,000 today.

The planes were destroyed last night when flames believed to have sprung from the parachute loft of a hangar spread to the gasoline tanks.

First Pacific Airliner Off

VANCOUVER, July 14.—(CP)—A new link in Canadian travel services was forged yesterday.

The Canadian Pacific Air Lines' Empress of Vancouver took off from International Airport here on the company's first scheduled flight to Australia. The flights—fortnightly—are by way of San Francisco, Honolulu and Fiji.

In addition to passengers and crew on today's flight, the Canadian Four aircraft carried nearly 150 pounds of airmail, including 8,000 "first flight" covers. These are special cancellations for philatelists throughout the world.

Crew members on the Empress are: A. Vanbee, Edmonton, captain; Craig Stevenson, Woodsworth, Man., first officer; Brian Helling, formerly of Bristol, England, navigator; C. H. Freeman, Chapleau, Ont., radio officer; J. L. Stephens, Vancouver, flight engineer. Stewardesses are Barbara Ayliffe, of Victoria, B.C., and Margaret Linehan, of Melbourne, Australia.

Calgary Birth Rate Shows Big Increase

CALGARY, July 14.—(CP)—A marked increase in Calgary's birth rate during the last three months was reported by Dr. W. H. Still, medical officer of health, today. A total of 887 births were registered of resident parents, compared with 766 during the same period last year.

Industrial Show Features Fair

Many New Facilities
To Aid Displays Here

Outstanding attraction at the Edmonton Exhibition Association's 71st annual summer fair will be the commercial and industrial exhibits displayed in the Manufacturers' and Industrial Buildings.

This year many alterations have been made to facilitate the general display of commercial and industrial products.

In the Manufacturers' building located in the south-east corner of the grounds, more than 60 different displays will be on view.

They include exhibits by furniture dealers, meat packers, bakers, processors of frozen foods, dairies, flour mills, photo studios, and many demonstrations in various kinds of commercial gadgets.

REMARKABLE DISPLAYS
In the industrial building patrons will witness many remarkable displays. The T. Eaton (Western) Ltd. has a large space in this building for the display of products of particular interest to farm people.

Alberta Fur Breeders have a valuable display of furs and pelts. Imperial Oil Ltd. will stage an interesting display in keeping with the general atmosphere of Edmonton, the oil capital of Canada.

POST OFFICE

Post office department will operate a post office in this building where stamps may be purchased and letters and parcels mailed for the convenience of exhibition visitors.

Both displaying goods made by British Industries will include textiles and many other articles for which old country manufacturers are world famous.

A special attraction will be the show of British cars of all makes and sizes.

The British exhibit will be under the direction of the United Kingdom Trade Commissioner.

Port Royal, Nova Scotia, was the first permanent settlement of Europeans north of the Gulf of Mexico.

WIZARDS of xylophone are these two youngsters. The Gray Sisters, who are featured with this year's grandstand show playing at Edmonton's gala exhibition. Sisters will be seen twice nightly in big attraction.

Exhibition Post Office To Be Operated Again

Edmonton Exhibition post office, an outstanding success last year, will again serve exhibition visitors during next week's summer fair.

The attraction this year, as in 1948, will be a cashier service on letters posted at this office.

The cashier depicts an Edmonton scene showing city buildings, oil wells, and forest and farm scenes. The post office will be located in the industrial building immediately east of the Arena.

ALL OVER WORLD

Philatelists from all parts of the world have sent in self-addressed envelopes so that they may obtain these souvenir covers. Whatever number or type of stamps desired will be placed on envelopes by post office officials and will be held until the day collectors wish them mailed.

These envelopes should be brought personally to the exhibition post office or sent under cover to the Postmaster, Edmonton, Alberta. Last year more than 17,000 covers were mailed from this office.

Conservatives Win Seat On Recount

LONDON, Ont., July 14.—(CP)—Re-election of Progressive Conservative Harry O. Whit under cover to the Postmaster, Edmonton, Alberta. Last year more than 17,000 covers were mailed from this office.

NEW DELHI.—(CP)—India's coal output for the first six months of 1949 was 15,500,000 tons—500,000 tons more than in the record first half of 1947. Greater efficiency and better labor relations are credited for the increase output.

WOULD DEER QUALIFY WITH SULKY?

OLD ORCHARD BEACH, Me., July 14.—(AP)—The starter really had his troubles in the third harness race here last night.

On the way to the gate, Television reared, breaking his sulky. That held things up several minutes.

Once away, the field had to be called back. A dog snatched onto the track.

Then it was a deer, apparently drawn away from nearby woods by the track's floodlights.

The deer fled; the horses finally had the track to themselves.

A Dutch chemical industry is producing a newly-invented chemical called "galathea," which prevents fats from growing rancid.

10 EDMONTON BULLETIN, Thursday, July 14, 1949

Wainwright Scene Of Sham Battles By Reserve Force

One of Largest Peacetime Exercises Billed For Today

WAINWRIGHT MILITARY CAMP, July 14.—One of the largest peacetime exercises staged by the Canadian Army was scheduled to take place this afternoon over this sprawling 143-square mile eastern Alberta encampment.

FILLS THE BILL does actress Jane Greer as she proves the style in sweater girls hasn't changed a bit. She won the title of "Miss Sweater Girl of 1949" in the 10th annual contest sponsored by the Hollywood Motion Picture Photographers Association.

Wrestling Show On at Hanna

HANNA, July 14.—Hanna Kiwanis Club is sponsoring a professional wrestling card featuring Larry Tullman and Al (Mr. Murder) Mills at the Fair Grounds Saturday night at 9 p.m. Dave Ruhl of Soap handled match-making for show all proceeds of which go to the arena fund.

Larry Tullman will meet Ted Toulas in the semi-windup while Ruhl and Tiny Mills brother of Al, meet in the preliminary. It had been hoped to have Primo Carners on the card but injuries suffered by the giant Italian in an Edmonton bout made it impossible for him to be on hand.

Children's Picnic Held at Sexsmith

SEXSMITH, July 14.—Annual children's day picnic, sponsored by the Elks Lodge and the Canadian Legion, was held at the Buffalo Lake sports ground. There was a record crowd on hand.

Races were held for the children and horse and carriage contests for the older kids. Buffalo Lakes whopped North Kinsmen 15-2 in baseball game which wound up proceedings.

SEXSMITH, July 14.—California Minnows touring baseball team visited Sexsmith and walked off with an easy 21-3 victory over the town team.

AUTO DOES FLIP FLOP

HANNA, July 14.—A carload of United States' tourists escaped injury in an unusual accident on highway No. 9 near here.

As the automobile passed through a curve it suddenly went out of control, did a complete flip, landing back on the wheels. Only damage was to the fender caused when vehicle crashed through a fence.

Red Deer Juniors Scuttle Penhold

RED DEER, July 14.—Red Deer Active Club juniors slugged out a 16-9 win in an exhibition baseball game with Penhold seniors here last night.

In a contest called in the sixth inning because of darkness, Red Deer socked seven extra base hits, including two home runs by Lawrence Gillespie, Abbott, Peddie, and Ford clouted triples and Smith and Hall contributed doubles to the slugfest.

Penhold, 170-901-9-11-6 Red Deer, 135-633-16-11-3
1st Base: Parkinson (4), and Moore, W. McKinnon (4), Vold and Van Hellen.

Dandily Dumps Derby Dandy

CHICAGO, July 14.—AP.—Dandily, a four-year-old filly, yesterday trounced a field of seasoned sprinters, including Kentucky Derby winner, Ponder, in the \$27,450 Myrtlewood handicap at Arlington Park.

Ponder, ninth and last most of the way, closed gamely in the six-furlong race, but couldn't do better than fourth in his first start since the Belmont Stakes, June 11.

Officially rushed to the front near the 16th pole to win by 2 1/2 lengths Dandily's time was 1:10 4/5.

Cemeteries Often Need Better Care

By Ken Liddell
Principal News Editor

That was cheering word in the Peace River Record-Gazette about a board being formed to administer affairs of the cemetery.

If it takes that interest in it, no doubt the town has a well-kept cemetery, but it is a step in the right direction which could well be followed by many another community.

If there is anything which would make a fellow move to the coast when he retires it is the thought of being buried in some country cemetery.

In the first place you can't find them and in the second place when you do find them you can't find the graves for the weeds.

Many communities have a cemetery day once a year and clean up the grounds, but that is as far as it goes.

The weed growth just goes on forever.

The wind is allowed to take its toll unchecked and the tombstones get wobbly and lean this way and that until what should be a tribute to the old folks looks like an illustration for a ghost story.

Often in a small town the chap who was most liked and who did the most for his community in many small ways is the fellow who could least afford any monument, large or small.

So it would hardly be fair to expect a small town to enforce a bylaw in vogue in some cities that only uniform headstones be used.

But it wouldn't cost much to cut the grass and repair the fence once in a while.

Might also help to remove that nasty appellation Graveyard.

3 Dayland Students Win Music Awards

DAYSLAND, July 14.—Three students of music teacher Mrs. Jean Miller received honors in examinations of the Royal Conservatory of Music, Toronto, branch.

Donna Johnson, grade seven, Bill Lohner, grade five, and Vallaine Lang, who took grades four and five in one year, were the successful students.

Agent Transferred

ANDREW, July 14.—Mr. C. Kershaw, C.P.P. express agent, has been transferred to Halikirk. His position is being taken over by Dave Frueh of Andrew, who was trained by Mr. Kershaw.

Hanna Just Beaten

HANNA, July 14.—Touring Muskogee Cardinals of Oklahoma edged the Hanna nine 12-11 in a game here. Outstanding play by the Cardinals' outfield gave invaders the victory.

Exhibition Investment At Camrose

New Grandstand Being Built For Town's Big Fair

CAMROSE, July 14.—The Camrose Agricultural Society has invested \$25,000 in comfort and convenience of its patrons and exhibitors for this year's fair, Aug. 2 to 4.

Two of the busiest people around town these days are society President E. W. Schnell and Secretary J. E. Stuart as they line up a clear track for the eighth annual fair in operation more than 30 years.

NEW GRANDSTAND
At the grounds workers are busy erecting a new grandstand which will seat 1,500 and take over from the old bleachers, and other improvements include new barns for the hog and sheep exhibitors.

Featuring this year's fair will be the parade on the second day. The grandstand and grandstand platform attractions by KBD Enterprises of Calgary.

A feature of the last day will be the livestock parade.

CHILDREN'S DAY
First day will be given over to the children with reduced rates, matinee platform attraction. The grandstand attractions will be presented each evening.

Exhibits for judging will include cattle, hog, sheep, horses, handiwork, domestic science, grains and grasses, with first day devoted to junior work.

It is expected there will be 50 harness racing horses in for the meet, which is one of the best in Alberta.

There will be six heats on afternoon of second and third days and three heats in the evening.

NO PROFITS NO LOSSES

HANNA, July 14.—In a material sense James Pringle of West Wingham is no better or worse off than he was before—but financially he definitely is not doing too well.

Mr. Pringle attended an auction at a neighbor's farm and purchased four steers to augment his herd. But when he returned home he discovered that lightning had killed four of the original group.

Board Films Help Canada

JASPER, July 14.—Educators from 14 states visited Jasper in the course of a tour of Canada.

Under the direction of J. C. Shankland, principal of Central junior high school in Kansas City, Mo., the party of 26 stayed at the Tekara Lodge.

The visitors praised the mountain scenery and the hospitality of the Canadian people.

The group viewed a showing of National Film Board pictures which included "Opening of the Canadian Parliament," "The Work of the R.C.M.P." and others.

"These pictures were greatly enjoyed and did much to interpret Canada to us," Mr. Shankland said.

Catholic Church Bars Communists

VATICAN CITY, July 14.—(AP)—The Vatican yesterday decreed major excommunication against Communists.

The decree was issued by the sacred congregation of the holy office. Excommunication was off Roman Catholics from participation in the sacraments of the church and the society of the faithful.

The excommunication was ordered by Pope Pius XII. It comes at a time when the Roman Catholic Church is engaged in bitter struggles with Communist countries east of the Iron curtain.

Agent Transferred

ANDREW, July 14.—Mr. C. Kershaw, C.P.P. express agent, has been transferred to Halikirk. His position is being taken over by Dave Frueh of Andrew, who was trained by Mr. Kershaw.

Hanna Just Beaten

HANNA, July 14.—Touring Muskogee Cardinals of Oklahoma edged the Hanna nine 12-11 in a game here. Outstanding play by the Cardinals' outfield gave invaders the victory.

Rain Needed Badly In Bellis District

BELLIS, July 14.—Heavy rains are desperately needed in the Bellis district to save an even smaller harvest. Hot, dry weather is burning the crops up.

A few light, local showers during the week have helped farmers who are doing summerfallow work. Pastures have taken a new growth.

Church Aid Voted For Red Countries

CHICHESTER, Sussex, England, July 14.—(AP)—The 44-country World Council of Churches last night allocated more than one-third of a \$1,233,000 draft budget for church aid to the countries of Communist-dominated eastern Europe. The council is holding a conference here on world church problems.

Veterinary Lab Opens Here Today

Provincial Officials Will Attend Opening Ceremonies

Alberta's new veterinary laboratory opens its doors to the public here today with special ceremonies slated for the afternoon.

The new lab, situated adjacent to the University of Alberta Farm, will be officially opened at 2:30 p.m. by Hon. David Ure, Alberta's minister of agriculture.

The laboratory was first started in 1940 for the diagnosis of poultry and animal diseases.

At that time it was located in the Terrace Building in downtown Edmonton.

During the first year of operation 600 specimens were examined but in 1948, 2,800 specimens were submitted.

Also in 1948 12,300 Anglerman tests were made for bovine brucella loss.

The work has made a tremendous increase in 1949 with over 2,700 poultry and 900 animal specimens being received in the first six months.

After a few years in the Terrace Building, it was evident that the facilities would eventually be far too small. Ten acres of land were bought adjacent to the U. of A. farm on which to build a new laboratory.

Construction was started in 1945 but due to the war and other conditions, not until last year was a new building completed.

LARGE STRUCTURE
The new laboratory is a large building of three stories, 54'x45', following a judicial recount.

Blood Poison Victim Flown To Edmonton

Flown to Edmonton by the RCMP from a remote area just in the Northwest Territories, Signin, R. G. Stewart, 25, of Toronto is receiving treatment in hospital here today for blood poisoning of the hand. His condition is not serious. A plane from No. 425 Transport Squadron was diverted on a flight to Sawmill Bay, N.W.T. to Wrigley Airport, south of Norman Wells, to pick up the soldier. The poisoning resulted from a cut suffered while Stewart was doing a special line job for the RCMP.

ALBERTA DEPARTMENT OF AGRICULTURE
Announces the Opening of the New
ALBERTA VETERINARY LABORATORY

Located on 116th street adjacent to the northeast corner of the University of Alberta stock farm, the new \$100,000 Alberta Veterinary Laboratory is modern in every respect in order that the Veterinary Services Branch can meet the large demands made upon it by livestock and poultry men throughout the province.

Staff:
DR. E. E. BALLANTYNE, Director Veterinary Services Branch
DR. C. H. BOLLAND, Veterinary Pathologist of Poultry Diseases
DR. G. S. WILTON, Veterinary Pathologist of Animal Diseases
DR. J. G. O'DONOGHUE, Extension Veterinarian

In addition to maintaining the Veterinary Laboratory, this branch of the Department

DEPARTMENT OF AGRICULTURE
Hon. D. A. Ure, Minister
O. S. Longman, Deputy Minister

Mohr

ON SPORT

Virgil Trucks And His Etchings

"Leave us" spin the sports sphere: Virgil (Fire) Trucks, winning pitcher as the American League representatives hotfooted the Nationals 11-7 in the annual All-Star game Tuesday, was involved in a "Wallis incident"—reverse English style—in a "Wallis incident" a couple of years back. Big Virgil was showing his etchings to a lady friend in his hotel room after curfew had gone and the management registered a beef. Trucks promptly popped the house-guards on the chops, following which the tavern entered suit against the hot-headed Detroit pitcher. At this late date the matter still has not been settled. . . . Jockey Stan Connell, who ran afoul of presiding Judge George Schilling at the spring race meeting here, has been in part of a bail-off-fire at the Vancouver meeting. Incidentally, the red-head from Big Bear Lake, California, isn't likely to get the green light in these parts for a long time to come.

Wilder Ripley, well known Calgary sportsman, has purchased a "piece" of aging Allenjays. In 1947 this hide was to become known that any other thoroughbred campaigning on Canadian tracks. He tailed off somewhat last year, as might have been expected.

Attention Riley Mullen, Johnny Lupul, Jim Kelly and the rest of you "guessers" in the Big Four Baseball loop: Don Lindberg, headman at the recent Brooklyn school at Renfrew Park and this to say about your efforts: "I've seen a lot of umpiring this season, especially along the west coast, and the boys right here are doing a mighty good job by comparison."

Tom Fears A Bit Player

Remember Tom Fears, member of Los Angeles Rams football squad who attended spring training workouts of coach Amos Stukus' local aggregation? Well, Fears has been playing bit parts in the movies, recently concluding work in a picture with Victor (The Body) Mature. At that Fears comes close to qualifying as a matinee idol (are there still such animals?), considering his good looks, broad shoulders and more. . . . At 42 years of age outfielder Roger (Doc) Cramer still is going strong, although no longer in the majors. Cramer, who showed at Renfrew Park with touring big league teams on three occasions and made a host of followers, really, earns his keep with the Los Angeles Angels circuit.

Robert Allen, the prize-winning horse, has made a big splash in the horse world. Allen, a former champion, has been named as the champion of the 1949 season. Allen, a former champion, has been named as the champion of the 1949 season.

Add: It's being handled in bush-league style, dept. If the Shector is going to resign as manager of the football Eskimos, he should do so immediately. Otherwise team heads, in fairness to Shector, should take a stand that they are solidly in his corner and contemplate no change.

Tommy Gorman to the Rescue

We are getting a big bang out of the all-out effort to be made to put Barbara Ann Scott across with Canadian entertainment seekers, via that proposed cross-Canada junket planned for next autumn. Plain fact of the matter is that Miss Scott, whose Olympic accomplishments were built up out of all proportion (figure-skating still is a pastime of the few who can afford it), held a big bag in the United States last winter. Now Miss Scott, a Canadian, anxious to get out from under what must be a hefty commitment to the Ottawa skater, graciously (?) has consented to permit Tommy Gorman to "show" Miss Scott to every city and hamlet in Canada that's prepared to pay the shot. At that she'll draw better on this side of the line than on the other—ONCE.

Jack Davies, determined winner Morrissey last season, has been cut "loose" by Cleveland Barons of the American Hockey loop. Barons carried Davies, likely to be rated with these all-time biggest disappointments, on their list for two years.

Ken McKenzie, publisher of Hockey News, stopped over in the city yesterday on his western good-will tour. "The Poor Man's Taylor Spink," as he's known in some circles, looks for the circulation of his puck weekly to go to 50,000 before the wrapper is on the 1949-50 hockey season.

Mortons in Driver's Seat at Long Last

It took Mortons 15 games and 12 wins to do it, but they finally took over first place in the Senior Ladies Football league last night at Kingsway park.

BIG GUN as Anavets last night handed North Side Legion its first defeat in league soccer play as three goals were scored by Birmingham. He booted two goals when Vets won 3-0.

Leafs Down CNR Rally to Win 3-2

Maple Leafs hung on by their boot-strap in the ninth inning last night to withstand a late CNR rally and win a Junior Baseball league game 3-2.

Trailing 3-0 into the last half of the ninth, the Leafs' fight crew rallied to secure the win, with Dave Brown scoring the winning run.

Anavets Hand Legion First League Defeat in 3 Years

The inevitable happened at last. The Anavets, who have been undefeated in league soccer play for three years, were defeated last night by the North Side Legion 1-0.

It was hard for fans to get through their heads that the powerful North Side Legion machine, perennial Alberta champion, could be beaten last night. For year after year Legion went on winning with monotonous regularity.

But beaten they were, and it was a sound thrashing that Steve Olander's Anavets handed out. Score was 1-0 and it marked the first defeat suffered by Legion in three years of league play.

Anavets have good reason for broad smiles this day. However, taking some of the bluster out of the great triumph was the fact that there was a home tie between the two teams.

Birmingham, turning in a best effort of the season for Anavets, was the shocker. Steve Olander, who started Anavets on their meteoric rise, took advantage of a Legion defensive lapse to beat them.

Birmingham's second goal of the night, five minutes later, was a home tie between the two teams.

Jim Frew and Harry Skimere, on a sweet play and through the trap with a powerful leg.

Bobo's Feet Itchy Again

Bobo's Feet Itchy Again

PICTURED HERE is the new Plymouth De Luxe All-Metal Suburban. It features a spacious interior that can be adjusted to suit various types of loads. With both seats in position it provides comfortable seating for 6 passengers and a cargo space of 40 cubic feet. If more space is required for delivery use, the driver can fold away the rear seat and the Suburban then provides room for three passengers and has a cargo space of over 84 cubic feet.

B.C. Plans Financing For 5-Year Expansion

VICTORIA, B.C., July 14.—(CP)—Plans for financing British Columbia's five-year plan of industrial expansion are under way.

It is a program aimed at the expansion of the province's economy which was outlined by Premier Johnson and his cabinet in a statement released to the public.

The plan is to increase the province's industrial capacity by 50 per cent in five years. It includes a program of research and development, and a program of expansion of existing industries.

Army Starts Inventory of Technicians

OTTAWA, July 14.—(CP)—The army is starting an extensive inventory of the technicians and specialists it could call upon immediately if war came.

In effect, it is taking stock of the supplementary reserve, now a somewhat nebulous list of names of people whose services it might need but who now play no active role either in the regular or reserve forces. It will be better organized and brought up to strength.

BASIC PERSONNEL
"In the event of a national emergency," a statement said, "the supplementary reserve is expected to provide the basic administrative and directing personnel of units not included in the existing reserve force, but required to complete mobilization."

"It is trained and equipped to take over the functions of the regular force in the event of a national emergency," the statement said, "and to provide technical assistance to the regular force."

PRESENT DEFECT
The statement said that the supplementary reserve was limited to qualified officers who had served in the regular force, and to civilians who offered their services. Recently it was decided to include other ranks retiring from the active and reserve forces, whose services would be available in the event of a national emergency.

Local Officer Heads RCAF East Camp

GIMLI, Man., July 14.—(CP)—More than 1,000 men are attending this camp near Lake Winnipeg under Group Capt. M. Hendrick of Northwest Air Command, Edmonton, and it is believed to be the largest ever held in Canada for active reservists of the RCAF.

The camp is being held at the Gimli Air Station, which is a new development in the town of Gimli, Man. The camp is being held for the purpose of training reservists in the use of the new aircraft.

The camp is being held for the purpose of training reservists in the use of the new aircraft. It is expected that the camp will be a success and that the reservists will be well trained for their duties.

In addition to four European-known D' singers in leading roles, there will be a chorus of 60 Edmontonians and a ballet in the opera.

Loganberries Here To Tempt Taste-Buds

By Bea Thrift

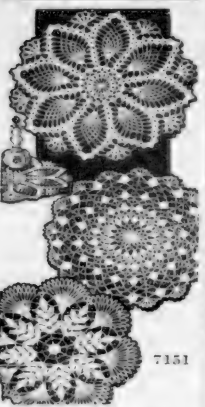

At just loves fresh loganberry pie? And that's exactly what we want at our house are going to have for dinner. Loganberries arrived yesterday to sell at a reasonable price of 25c per box.

They're juicy, tasty and have just the correct shade of tangy "zip" to make a wonderful pie.

Try some yourself. The season for them is all too short.

Red currants, black currants... any color currant is available now for the sum of 25c per small box.

They make such wonderful

WHY GROW OLD

Leg Makeup Can Look Like Hose

By Josephine Lowman

I cannot think of any instance in costuming in which women have been so independent as in the case of their stockings! So, could there be a better day to consider leg makeup and hose than today?

Women have not only stopped hanging stockings on Christmas Eve but they have left them off when it suited them! The war was very helpful in this way, because it was impossible to obtain attractive stockings for a long while.

Women have learned that stockings are very hot and that they themselves are much more comfortable without any, when the thermometer soars. They have also found that they can use leg makeup attractively. If this is carefully applied it makes you look as though you are wearing very sheer hose.

However, today I am thinking of the colors in hosiery. I feel that most women overlook the difference this can make. For instance, if you wear a shade which is too light with your winter shades or one which is too dark with your summer shades, it changes your entire appearance.

They have tried to tell us those very brave, brave, brave, brave years now. I bought some and tried to feel in fashion. All they did was make me feel like a little old woman. I discarded mine and bought some when were dark but not black.

Now that summer is here, you will be most attractive if you buy a shade which makes your legs look as though they have a nice soft sun-tan—not too brown, or too light and anemic looking.

Of course, if you have a calf which is too large or too small, or a thick ankle, you can improve the situation with a little leg makeup. If you want help, send a stamped self-addressed envelope with your request for my letter. See why Not Take Time Toward Leg Makeup. Address: Josephine Lowman, 10416 102 Street, Edmonton.

BRIDGE

Always Remember

The Rule of Eleven

By WILLIAM E. MCKENNEY

One of the first lessons for the beginner in bridge is the "Rule of Eleven." This rule is very simple and it is one of the basic principles in the play of the cards.

Let's say you are the dealer and you have the following cards in your hand:

♠ A Q J 2
♥ K 10 9 8
♦ K 10 9 8
♣ A Q J 2

Lesson Hand—E-W vs N-S
South West North East
1 N T Pass 4 N T Pass
2 S 2 Pass Pass
Opening—5 14

It is true that it is not applied in every hand, because South has the best. But certainly against a trump contract, you have a right to assume that he is in today's hand West opens the five of hearts against the ace in trump contract. Declare played the eight-spots from dummy, and without any hesitation East played the king South won the trick with the ace, and now played West for the queen—the jack of hearts was the needed card.

From all the players at the table said to East: "Why did you not play the king?" East said: "I have been taught to play the king against the ace." West said: "That's right, but in this hand you should have played the queen." East said: "I have been taught to play the king against the ace." West said: "That's right, but in this hand you should have played the queen." East said: "I have been taught to play the king against the ace." West said: "That's right, but in this hand you should have played the queen."

When you're making those bran muffins for Sunday breakfast come the week-end... mash a ripe banana and fold into the batter... what a pleasant thing this does to the taste... good.

Hole in Toe Top Fashion For Stockings

LONDON, July 14.—(CP)—Ladies' fashion had for Paris stockings with a hole in the toe.

You can have stockings with inserted motifs of chintilly lace, tulips, or tufted or have them strewn with fine rhinestones. Or you can have them merely colored, printed or finely embroidered with tiny colored flowers.

But whatever decorative effect the stockings carry, having a hole in the toe is the thing that is making open-toed shoes, for whatever strangled open-toed shoes or sandals you can wear, a hole in the toe is the thing that is making open-toed shoes.

With delicate, strapped open-toed shoes or sandals you can wear, a hole in the toe is the thing that is making open-toed shoes.

Horoscope

By FRANCES DRAKE

Look in the section if which your birthday comes and find what your outlook is, according to the stars.

FOR FRIDAY, JULY 15, 1949.

March 21 to April 20 (Aries)—Hatter in some respects for artists and scientific matters, yet all their industries, manufacturing, building and progressive improvements highly favored.

April 21 to May 20 (Taurus)—Mining, agriculture also in the economic outlook today, with manufacturing, building, engineering, health, sports, and other matters in advanced position in the artistic times.

May 21 to June 20 (Gemini)—May be feeling in matters worldly persons and in work or other activities require keen mental judgment, but you can make headway in familiar routine work.

June 21 to July 20 (Cancer)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

July 21 to August 20 (Leo)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

August 21 to September 20 (Virgo)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

September 21 to October 20 (Libra)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

October 21 to November 20 (Scorpio)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

November 21 to December 20 (Sagittarius)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

December 21 to January 20 (Capricorn)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

January 21 to February 20 (Aquarius)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

February 21 to March 20 (Pisces)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

March 21 to April 20 (Aries)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

April 21 to May 20 (Taurus)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

May 21 to June 20 (Gemini)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

June 21 to July 20 (Cancer)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

July 21 to August 20 (Leo)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

August 21 to September 20 (Virgo)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

September 21 to October 20 (Libra)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

October 21 to November 20 (Scorpio)—Some day on whole may be quiet, even dull, for finishing tasks, preparing future activity. Enjoy weekend and family life.

YOUR BABY AND MINE

Hitting Is Sometimes Expression of Love

By Myrtle Meyer Eldred

Since biting, kicking and pinching can be done with a mean intent and with no malice at all, it takes a pretty acute and sympathetic observer to diagnose the motives for this behavior.

Children about two years of age have very few ways of expressing their love emotions. Quite often on kissing and hugging, though the latter can, at times, be painful. But even adults express love emotions in various ways and the kindergarten child, who should know better as an adult to bite the playmate, loves as to kiss her. His emotions well up overwhelmingly and he wants to communicate them to the loved one.

The child soon finds that this is an unacceptable way to act. Not only does the child scream and run from him, protesting, but the teacher chides him for treating his sweet little playmate so meanly. It's well to understand that the motives were not to hurt but he was trying, as he is told, to say, "I love you."

Mrs. W. M. wonders whether she has done wrongly by the child of a friend. "My friend has a boy of four," she writes, "and he does not know how to play with children. When we visit them or they visit us, he spends the day hitting, biting and kicking. My older children are so polite to do the same to him and the younger ones are his victims. I overlooked it until one day this boy sat on my boy and squeezed his head on the floor. When I took his hand and saw how he got up I said, 'Go and play where your mother and father can watch you. His mother heard this and she grabbed his hand and ran out of the house saying I had ordered her out. My husband thinks I should have let him alone, since he was a guest.'

This would seem to be an outrage in hospitality to accept such behavior from younger children. They deserve your protection. You must have said, 'You'd better play some other place than where my child is. You all want to hurt my child when you're here.'

This child, lonely and eager for attention, is doing his best to get the mother's attention. He is showing different ways of getting her attention. As for the mother, by accepting such behavior, she is teaching herself from the gulf she fell into—her boy's behavior and his inability, or unwillingness, to cope with it.

Nonagenarian Turns Out To Cast Vote

DEEP BROOK, N.S.—(CP)—A 90-year-old woman, Mrs. M. J. Macdonald, was the first woman to vote in the recent provincial election. She was Mrs. Macdonald's husband who was 90 years old when he died. She was 90 years old when she was elected to the provincial legislature.
